

CFT-150H Series

Auto Clean Wet/Dry Vacuum

CFT-150H is a one motor wet and dry class H certified dust extractor with Cyclone's innovative auto-clean system, with a 38L tank. There are 2 filters rotate to self-clean helping maintain high suction during operation. The HEPA filter captures 99.95% of particles at 0.3 microns. It is a portable and lightweight vacuum cleaner for liquids and dry fine dust both. The machine will shut down automatically when it has reached maximum fill level. Ideal for power tools that require continuous working, especially suited for extracting concrete and rock dust in construction site and workshop.

Main Features

- Automatic cleaning.
- Equipped with 2 HEPA filters: stops 99.5% of fine dust.
- Wet and Dry for extraction of liquids and solids.
- 38L of big capacity storage.
- Inbuilt power socket for power tools with auto on/off of the vacuum cleaner.
- Suction power control for adapted suction performance.
- Automatic trailing mechanism for emptying the suction hose.

Standard tools

Model	CFT-150
Rated Power (W / Hp)	1400kw / 1.7 hp
Rated Voltage	240V - 50/60Hz
Current	5.2 amp
Water Lift (max)	250mbar
Airflow (max)	262m³/h
Auto Clean	Yes
Filter quantity	2 pcs
Filter efficiency	HEPA, >99.9%@0.3um
Airflow adjustable	Yes
Power socket	10A
Power tool quick start	Yes
Remote control start	Optional
Brush Pressure	8kg
Tank volume	38L
Weight	13.5g
Dimensions	385 x 500 x 570mm
